

## MACHINE DEMONSTRATOR/OPERATOR TRAINER

CJD Equipment Pty Ltd is a proudly Australian owned company serving the construction, mining, agricultural and transport industries for over 38 years. Through our National Office in Western Australia we employ over 400 staff, and have branches in all major capital cities and various regional centres throughout Australia.

Due to our on-going company growth, we are seeking the services of an experienced and qualified **Machine Demonstrator/Operator Trainer**.

The person we are seeking will be experienced in operating the full range of earthmoving and construction equipment, and ideally will be qualified in training and certification of equipment operators.

The role will be based at our Guildford WA branch, and be part of our growing Customer Support Team. Experience on Volvo Construction equipment and certification to operate the company's low loader would be an advantage, but is not essential.

The successful applicant must also be able to demonstrate:

- qualification to operate earthmoving machinery with a minimum three years' experience;
- excellent communication and interpersonal skills;
- proven ability to successfully train others;
- ability to work well in both a team environment and without direct supervision;
- a high level of self-motivation;
- ability to work outside normal working hours and travel when required; and
- good computer skills.

An attractive remuneration package will be negotiated with the successful applicant. Interested applicants are invited to submit their resume by close of business 20<sup>th</sup> February 2012 marked to the attention of:

HR Manager, CJD Equipment Pty Ltd

PMB 3 Post Office

GUILDFORD WA 6935
